

Data and Voice Connections

T1 Company LLC

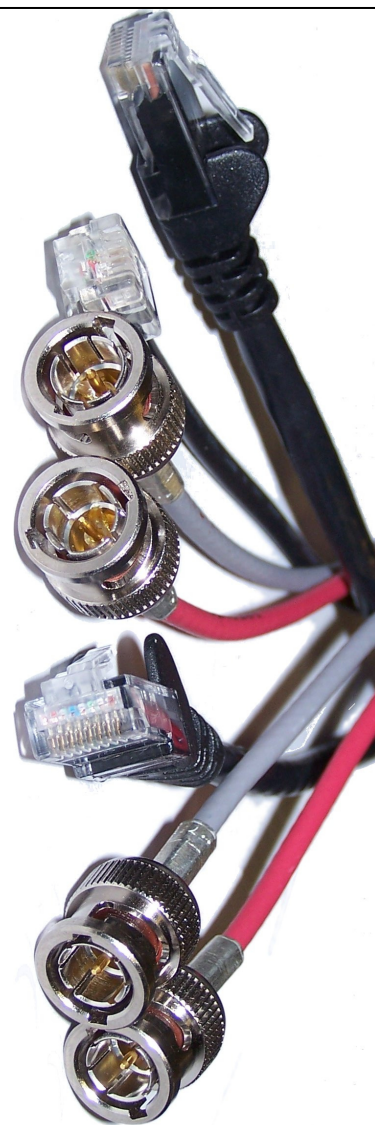

Metro Ethernet, DS3, OC3, T1, DSL

The T1 Company has multiple ways of connecting your business to the internet or to other sites. We provide Opt-E-MAN service from 5Mbps to 1Gbps, OC3, DS3, T1 and DSL connections. We utilize a 100% Cisco hardware architecture to ensure compatibility and performance of our network.

Traditional OC3, DS3, T1 and DSL connections, plus metro Ethernet and wide area service from 10Mbps to 1Gbps. The network is a Certified Cisco Powered Network with 24x7 Management and Monitoring Center with technicians with a minimum of a CCNA certification. We eliminate the cloud. Replace your tired, slow and congested Frame Relay or VPN Network with T1 Company Private Hubbed Network. With a service level which provides <18ms one way latency and 12ms of jitter one way there is no delay for critical applications or real time voice and video transmissions. You can be assured of getting the highest quality of service available in the industry with T1 Company data solutions.
